

# STRIPS

## “type G 1 00/G 1 50/G 200/G 300”

CLOSE JOINT CEILINGS

- Full closing of cavity
- Fast disassembly
- Full range of colours
- Customer choice

A complete closing of the cavity can be obtained with strips “SERIE G” ; this is the ideal solution for suspended ceiling that require high compactness and, in the meantime, easiness of disassembly for inspection.

Strips “SERIE G” are made of prepainted aluminium and used in modular suspended ceilings with closed shutter. Each modular element can be unhooked from its carrier and allows full accessibility for upper service maintenance.
